Rate and Unit Cost Reductions for Tangible Savings

Unnoticed excessive charges and varying rates quickly add up. Through comprehensive analysis of your Trust's agency spend, we can identify and rectify these inefficiencies, enabling you to achieve the very best-value pricing across agency and bank in every instance.

With a commitment to cost-efficiency, our focus is on ensuring the most effective outcomes for your Trust; our success is your success.

Results You Can Count On

Our tailored strategies have delivered measurable results for trusts across the NHS. For instance, our collaboration with Frimley Health resulted in £3.1M in savings within just five months, alongside enhanced compliance and service delivery.

“700k in savings delivered in a month has demonstrated how a more focused and planned approach results in more meaningful supply – better quality workers at a more advantageous price point. We are really seeing the benefits of this agreement.”
